

Architect of the Zero-Fatality Culture

Elite Industrial Safety Consulting & Leadership
by Mr. Rajesh Chandravanshi

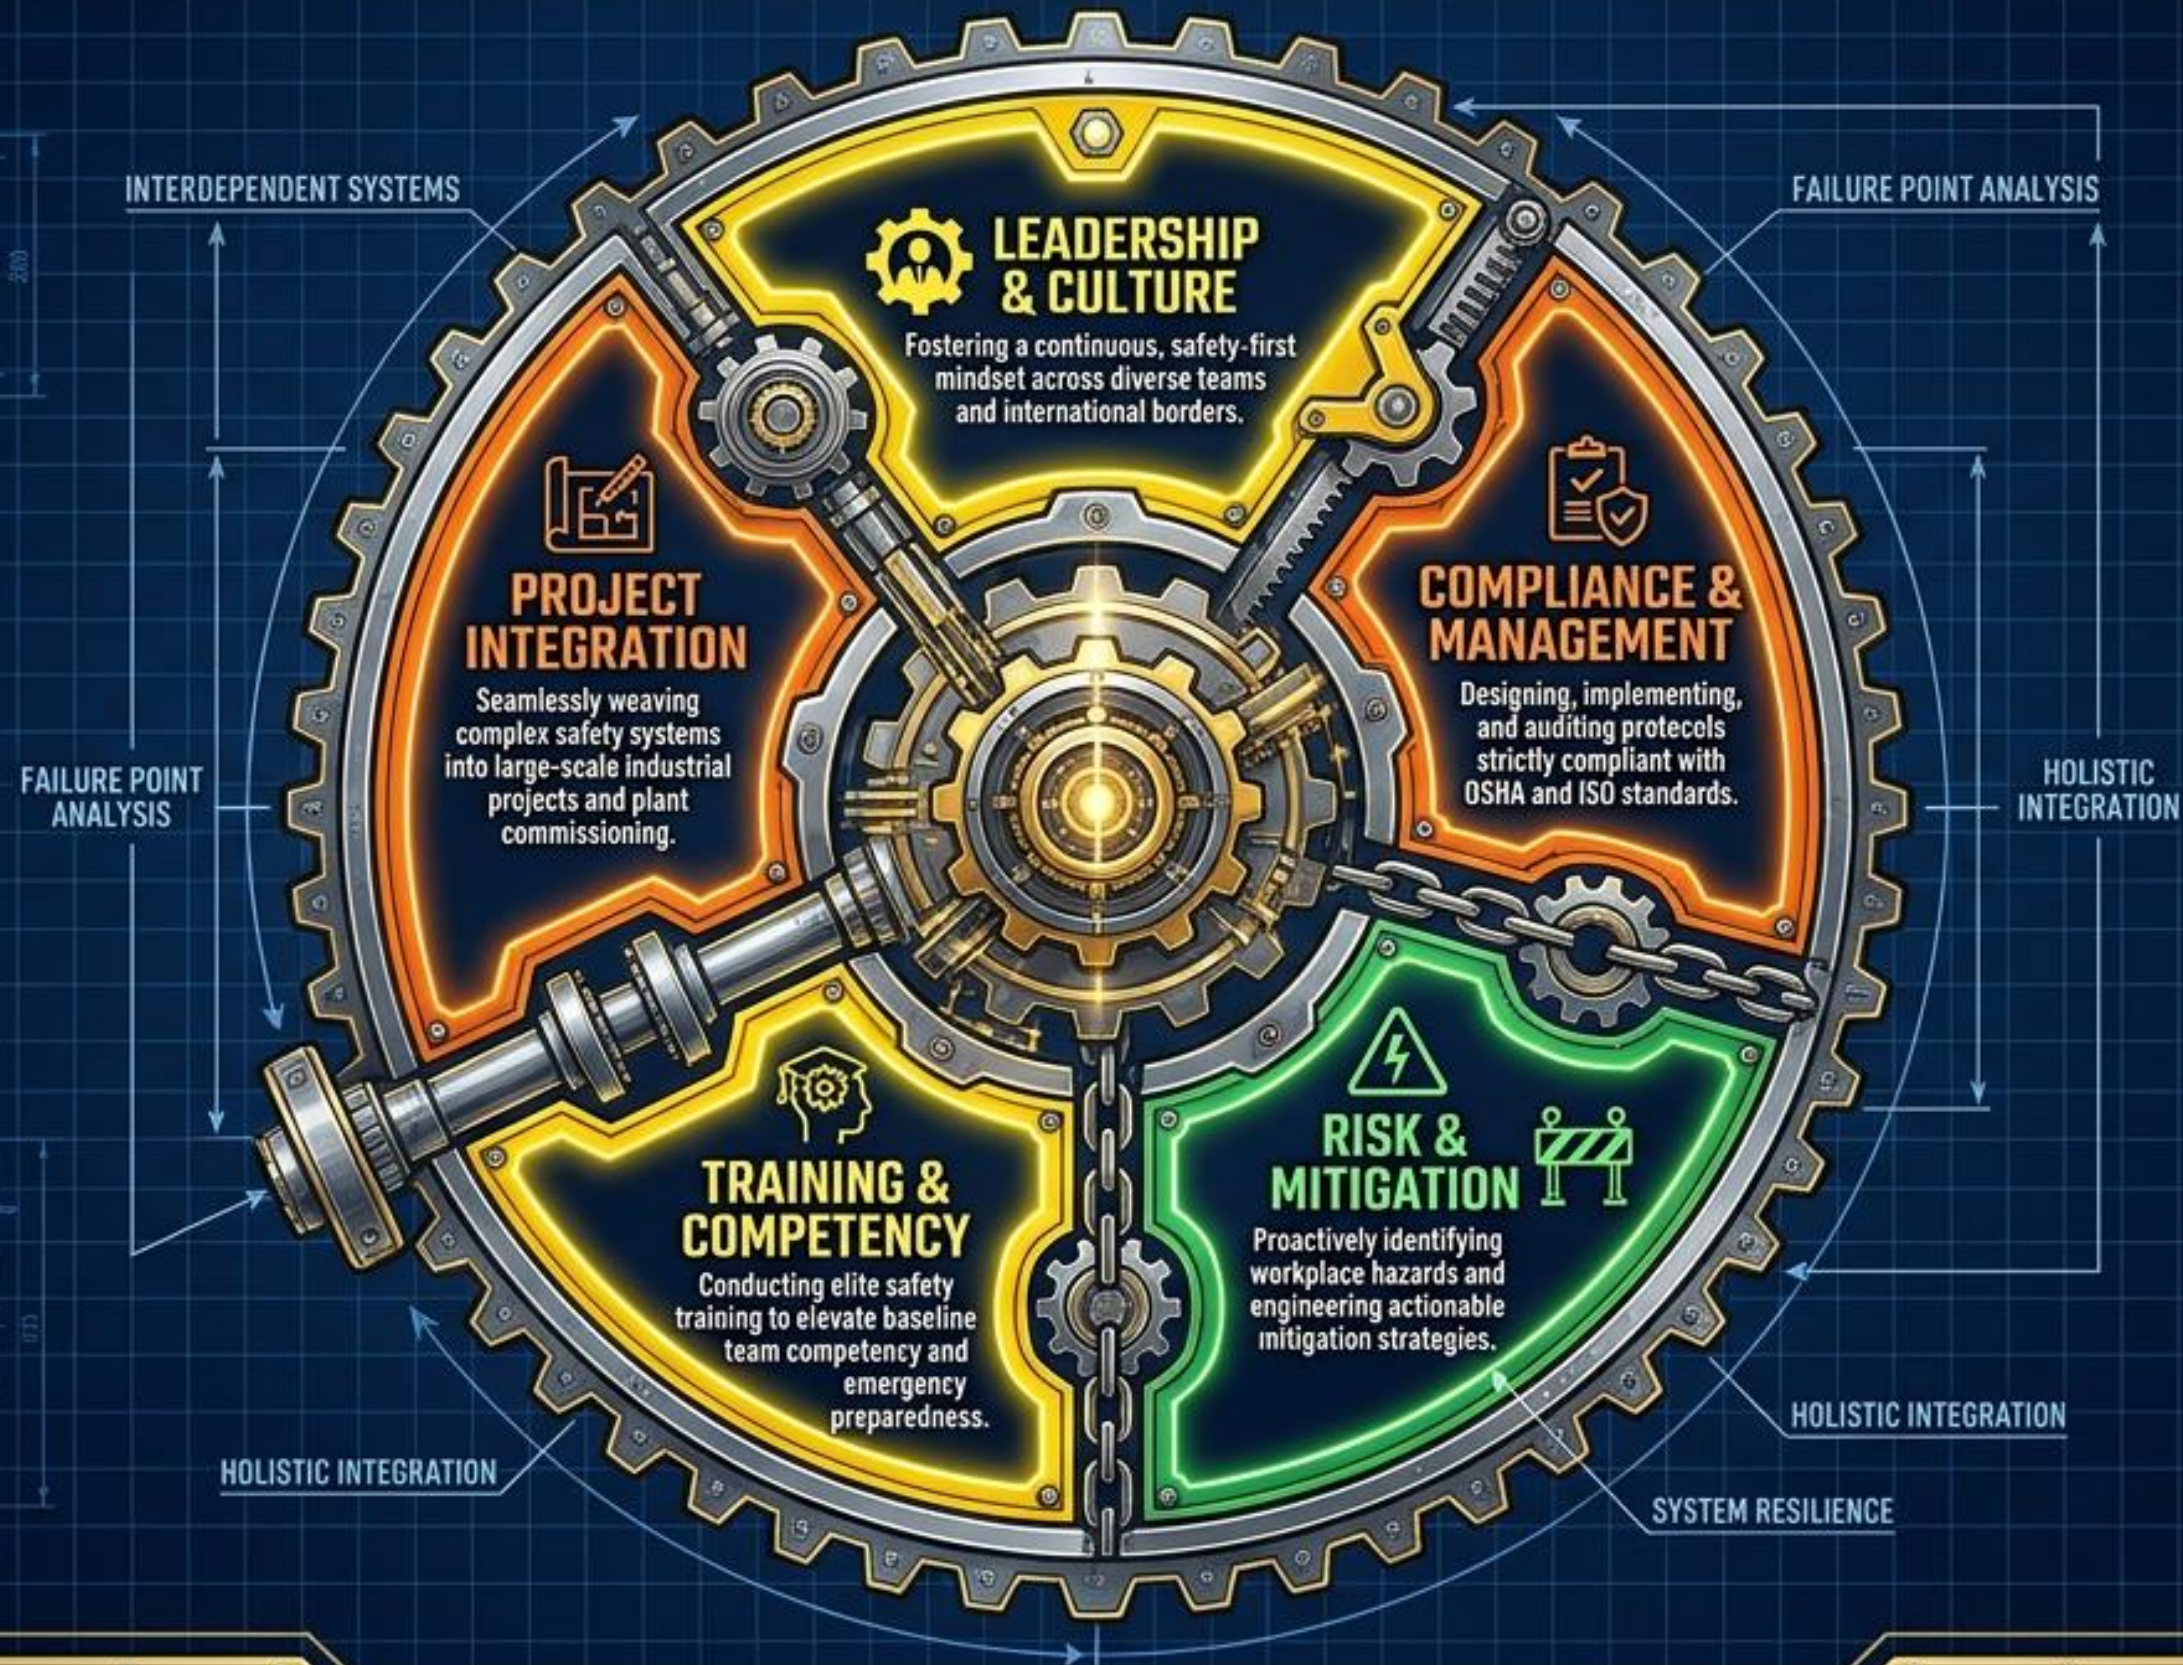

35+ Years Heavy Industry Experience

11-Year Global Safety Champion

Managing Director, Mitra Associates

INDUSTRIAL SAFETY REQUIRES AN INTERLOCKING, HOLISTIC ECOSYSTEM

THE FORMULA FOR REPRODUCING A ZERO-INCIDENT SAFETY CULTURE

TRANSFORMING SAFETY STANDARDS ACROSS THREE CONTINENTS

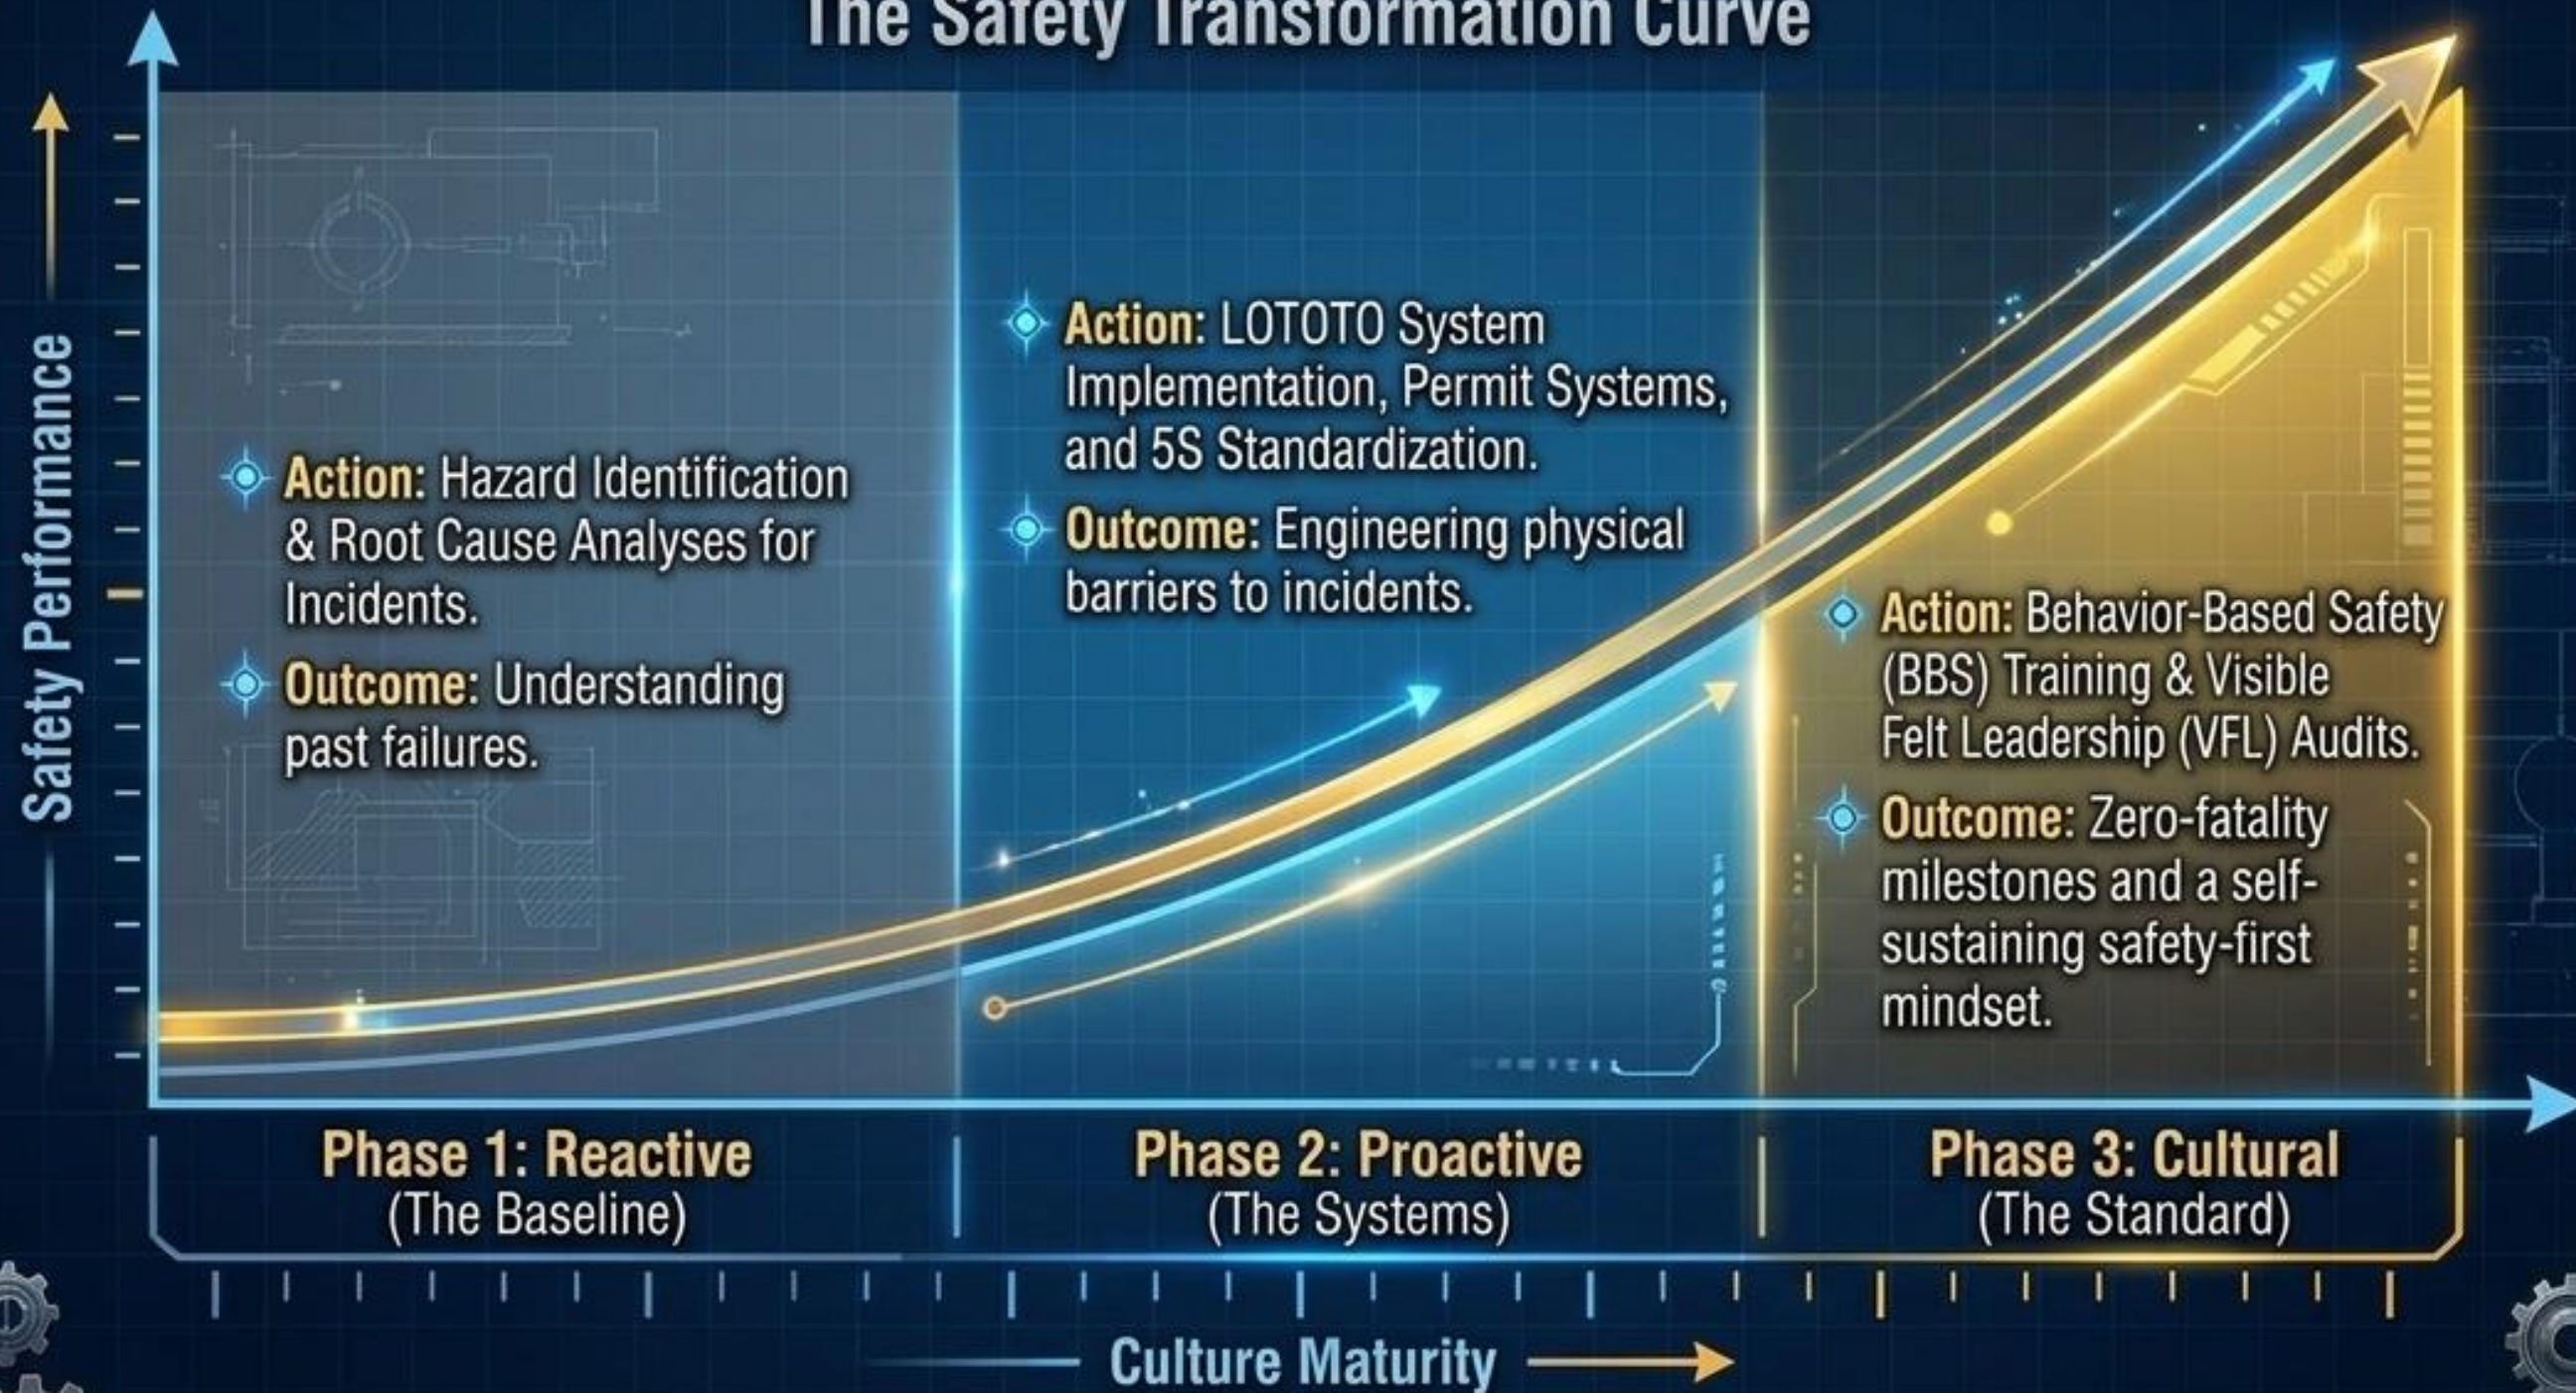

THE GLOBAL MANDATE

Summarizing an operational footprint across Lafarge Global, Tata Steel, Dangote, and Dalmia Cement.

Guiding industrial plants from reactive hazards to proactive culture

The Safety Transformation Curve

Thirty-five years of compounding leadership in heavy industry

The Foundation

1991–1999 | Tata Steel

Core Focus:

 Safety Integration & Early Protocols 

Hallmark Achievements:

 Integrating safety protocols during high-risk plant commissioning and massive maintenance activities. 

The Global Standard

1999–2015 | Lafarge Global

Core Focus:

 Global Standardization & Cultural Transformation 

Hallmark Achievements:

 11-Year Safety Champion driving zero-fatality milestones across 6 countries. 

The Specialized Systems

2015–2023 | Dalmia Cement

Core Focus:

 Electrical/Instrumentation & Advanced Permitting 

Hallmark Achievements:

 HOD E&I integrating LOTOTO, 5S, and rigorous Behavior-Based Safety (BBS) systems. 

Instilling a global zero-fatality mandate at Lafarge

11

Years serving as the definitive Safety Champion.

500+

Employees rigorously trained in emergency preparedness and hazard identification.

ZERO

Fatalities achieved as a direct milestone across multiple international sites.

Visible Felt Leadership (VFL)

Mandated active management involvement, ensuring safety was driven from the C-suite to the factory floor.

Root Cause Elimination

Led relentless root cause analyses for incidents, forcing immediate, data-driven corrective actions.

The Safety First Initiative

Re-engineered compliance frameworks to exceed baseline OSHA and ISO 18001 standards.

Systematizing operational safety and compliance at Dalmia Cement

Forging foundational safety protocols during Tata Steel commissioning

1991–1999

High-Risk Integration

Played a pivotal, hands-on role in embedding safety protocols during chaotic and high-risk plant commissioning phases.

Maintenance Operations

Oversaw safety enforcement during massive, complex maintenance turnarounds.

Awareness Architecture

Architected early safety training programs that demonstrably improved baseline awareness and strict compliance among the workforce.

Elite credentials forming the pillars of global safety authority
